

Forest Health Assessment Training

Saturday September 21, 2013

9:00am to 1:00 pm

How DO We Know A Forest is Healthy?

San Juan Headwaters Forest Health Partnership offers a day in the field to learn about measuring different components of the forest to determine health and wildfire risk.

Where: Cloman Park (behind Stevens Air Field), Pagosa Springs, CO

When: From 9:00 until 1:00 – BBQ to follow

During this event you will:

- Learn about Forest Health
- Learn forest monitoring techniques
- Talk with regional experts
