

# Upper San Juan Mixed Conifer Working Group

## Meeting Announcement

Friday, June 17<sup>th</sup>, 2011 -- 9:00 a.m. to 12:00 noon

Ross Aragon Community Center

(please check the sign at the front for the room we will be in)

---

### Agenda

- I. Introductions
- II. Agreement on the Agenda
- III. Approving Minutes: May
- IV. Discussion:
  - a) What did you learn from the Polygon exercise? Is a summary needed? If so, what should that summary “look like”?
  - b) What recommendations might the Working Group begin to consider as a result of learning about each sub-area? (Brainstorming)
  - c) What is a beginning list of “guiding principles” around management? (Brainstorming)
  - d) What additional information is still needed before making recommendations?
- V. Engaging the public - more planning and discussion. Question: What do we really want to learn from the public at this point?
- VI. Other
- VII. Next Meeting Date

### Ground Rules

1. Collaborative Learning – work together to learn together
2. Have respect for other opinions (don't have to agree)
3. Focus on issues, not people
4. One conversation at a time
5. Consensus: don't have to like it but can live with it; strive for full agreement; can use zone of agreement
6. Have fun
7. Welcome clarifying questions – can cover stuff again
8. Explain acronyms and jargon
9. Communicate on roles, authority, decision spaces (i.e. PRD & Group)

Note: Kevin Khung noted that he will be clear with the group where he and the USFS retain decision space or authority throughout the project as recommendations are crafted.
