

**Upper San Juan Mixed Conifer Working Group
Meeting 11, September 6, 2011
Pagosa Ranger District Office
Meeting Notes**

This eleventh meeting of the Upper San Juan Mixed Conifer Working Group was dedicated to reviewing a practice run of the Powerpoint presentation that Steve and a small group had been working on.

Attendees: Bob Frye, Bev Wharburton, Larry Lynch, J. R. Ford, John Nelson, Marcie Bidwell, Jimbo Buickerood, Thurman Wilson, Sam Burns, Marsha Porter-Norton, Mark Roper, Kevin Khung, and Steve Hartvigsen.

Steve, Thurman, Bob, and Dave Dallison met on June 29 to develop a rough outline of the Powerpoint presentation that was suggested during the June Working Group meeting. Steve and Mark Roper developed a draft based on the June 29 discussion. Steve presented the latest version at the September 6 meeting with the group giving feedback on suggested improvements. The detailed comments are not captured here. The edited presentation will be posted on the Mixed Conifer Working Group website: <http://ocs.fortlewis.edu/mixedconifer/>, under Key Resource Documents.

The group agreed to shoot for a late October presentation to a diverse audience. The evening of October 25 was later picked as the date. Working Group members were asked to try to invite at least three people to the presentation.
